

METİN BİLGİN

graphic designer

ABOUT ME

I am a graphic designer who lives in Istanbul. I am married and have a boy who is 5 years old. I have been servicing various companies as a graphic designer and front-end developer since 2003. Until August 2017, I have been working for Glacial Multimedia which is a U.S. based company. I served as the leader of design and developer team for 7 years in Istanbul office.

I have had experience on both design and front-end development during my 14-years of professional life. In recent years, I also had experience with both project and staff management.

"Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do" as legendary Brazilian football player Pele has once said. That is my motto.
